Specifications

Length	50m	Inner Core	3"
Weight		Surface	Matte
Caliper	130µm	Base Material	White PVC Film

Uses

Retail window decorations, glass & plastics, window graphics, trade show temporary graphics

Printing and handling

- Printing Temp: Temperature 15 ~ 30°C (59 ~ 86°F) / Humidity 30 ~ 60%
- Lamination: Optional, however using lamination can help to protect ink surface when used outdoors
- Shelf Life: 6 months after opening the box (1 year durability)
- Recommendation is to put the blank spaces between images when printing

Application tips

- Test the surface before use, samples are available, please contact us for details
- Ensure that painted surfaces are fully dry, it is recommended that vinyl paints are left for 3–4 weeks to gas off
- Clean and remove any loose material from the surface
- Recommended for long term indoor and short term outdoor usage
