Uses

Trade show panels, indoor & outdoor POS and retail banners

Printing and handling

- Recommended printing conditions for use: 15~30°C (59~86°F) Humidity 30~60%
- To optimize the printing quality, printer needs to be set for highest print quality
- Lamination is optional but can help protect the image from physical damage and to decrease image-fading
- Recommend storage for maximum of one year in closed original packaging in a cool temperature 10°~30°C (50~77°F) and dry environment with humidity 35~65%

Application tips

- It is recommended to test a sample before you use the film on your final job
- Before printing it is recommended to handle with gloves to avoid marks during printing
