

INSTANT  
HOT PEEL

ETP-DTF

# EXCEPTIONAL COLOUR SATURATION DTF HOT PEEL NON-OILY PET FILM

COMPATIBLE WITH DTF INKS AND POWDER

## Product description

- Achieve a durable soft to touch feel on textiles and other media
- A perfect heat transfer film, resistant to high temperatures for the ideal transfer of graphics
- Universal hot peel DTF film perfect for faster production and also works for warm / cold peel
- Made in South Korea ensuring consistent quality and coating
- Anti-static treated ensuring no powder is left on the film
- High ink loading delivering premium matte, high resolution, vivid colours with no oil

## Specifications

Length	20m & 100m	Surface	Matte
Width	30cm & 60cm	Base Material	100% PET

*Best results at 150°C - 155°C for 5- 10 seconds*

## Uses

Works with synthetic fabrics, cotton, linen, eco leather including for T-Shirts, tote bags, promotional items and more

## Printing and handling

- Transfer at lower temperature and in a short time
- Transfer images at medium pressure
- The film should be returned to the original packaging after each use, and stored in a ventilated and dry Environment, the DTF film is prone to moisture resulting in ink droplets being unable to spread evenly.
- Therefore, in order to maintain the quality it is necessary to avoid using the machine in a humid environment.

## Application tips

- When printing it is recommended to set the appropriate pass and heating temperatures, this will ensure that there are no material deformation or drying issues
- It is recommended to test prior to use, samples are available, please contact us for details
